Cadmium (soluble compounds)
Arsenic (soluble compounds)
Nitrous oxide
Methane
Lead (compounds)
Lead (soluble compounds)
Carbon dioxide
Nickel (soluble compounds)
Inorganic/organic cyanide
Trichloroethylene
Sulfur hexafluoride
Nickel (respirable dust, fumes or vapors)
Chromium (respirable dust, fumes or vapors)
1,1,1-Trichloroethane
Phenol
Polychlorinated biphenyls (PCBs)
Lead (respirable dust, fumes or vapors)
Mercury (respirable dust, vapors or fumes)
Nickel (compounds)
Chromium (soluble compounds)
Chromium (compounds)
Arsenic (compounds)
Mercury (compounds)
Mercury (soluble compounds)
Arsenic (respirable dust, vapors or fumes)
Cadmium (compounds)
Cadmium (respirable dust, vapors or fumes)
Hydrogen cyanide
Toluene
Methyl parathion
Dibutyl phthalate
Xylene (mixture of isomers)
Acrolein
Acetaldehyde
Dioxins
Benzene
Asbestos and other fibers or friable products that crumble under hand pressure)
