Mercury (respirable dust, vapors or fumes)
Cadmium (compounds)
Chromium (soluble compounds)
Nickel (soluble compounds)
Asbestos and its formulations (dust, fibers or friable products that crumble under hand pressure)
Cadmium (respirable dust, vapors or fumes)
Chromium (compounds)
Arsenic (respirable dust, fumes or vapors)
Nitrogen dioxide
Sulfur hexafluoride
Formaldehyde
Furans
Acrolein
Benzene
Acetaldehyde
2,4-Dichlorophenoxyacetic acid (2,4-D)
