Asbestos and its forms (as dust, fibers or friable products that crumble under hand pressure)
Polychlorinated biphenyls (PCBs)
Chlorodifluoromethane (HCFC-22)
Chloromethane
Chloroform
Chlorhexidine
Nickel (soluble compounds)
Chromium (soluble compounds)
Mercury (soluble compounds)
Arsenic (respirable dust, vapors or fumes)
Cadmium (respirable dust, vapors or fumes)
Cadmium (soluble compounds)
Benzene
Nickel (respirable dust, fumes or vapors)
Acrolein
Acetaldehyde
Furans
Formaldehyde
Dioxins
Lead (compounds)
Chromium (compounds)
Cadmium (compounds)
Inorganic/organic cyanide
Mercury (compounds)
Arsenic (compounds)
Nickel (compounds)
