Phenol
Styrene (phenylethylene)
Methylene bis(phenyl isocyanate) (MDI)
Toluene diisocyanate
Nitrous oxide
Xylene (mixture of isomers)
Toluene
Acrolein
Acetaldehyde
Cadmium (soluble compounds)
Arsenic (soluble compounds)
Cadmium (compounds)
Mercury (respirable dust, vapors or fumes)
Nitrogen dioxide
Arsenic (compounds)
Nickel (respirable dust, fumes or vapors)
Furans
Dioxins
Benzene
Chromium (respirable dust, fumes or vapors)
Lead (respirable dust, fumes or vapors)
Formaldehyde
Mercury (soluble compounds)
Chromium (soluble compounds)
Lead (soluble compounds)
Mercury (compounds)
Nickel (compounds)
Nickel (soluble compounds)
Inorganic/organic cyanide
Lead (compounds)
Arsenic (respirable dust, vapors or fumes)
Chromium (compounds)
Cadmium (respirable dust, vapors or fumes)
Carbon dioxide
Polymeric diphenylmethane diisocyanate
Methylene chloride
1,4-Dioxane
1,3-Butadiene
Asbestos and its forms (as dust, fibers or inside products that crumble under hand pressure)
Biphenyl
Pyridine
1,1,1-Trichloroethane
Sulfur hexafluoride
Antimony trioxide
Cumene
Hydrazine
1,1,2-Trichloroethane
