Nickel (respirable dust, fumes or vapors)
Chromium (respirable dust, fumes or vapors)
Trichloroethylene
1,2-Dichloroethane
Epichlorohydrin
Endosulfan
Methyl parathion
Asbestos and fibrous forms (as dust, fibers or friable products that crumble under hand pressure)
Dioxins
Polychlorinated biphenyls (PCBs)
Cadmium (soluble compounds)
Chromium (soluble compounds)
Mercury (soluble compounds)
Nickel (soluble compounds)
Chromium (compounds)
Arsenic (soluble compounds)
Lead (soluble compounds)
Cadmium (respirable dust, vapors or fumes)
Mercury (respirable dust, vapors or fumes)
Nickel (compounds)
Lead (compounds)
Polymeric diphenylmethane diisocyanate
Arsenic (respirable dust, vapors or fumes)
Carbon dioxide
Inorganic/organic cyanide
Mercury (compounds)
Arsenic (compounds)
Cadmium (compounds)
Chlorodifluoromethane (HCFC-22)
Silver nitrate
Acrylonitrile
Cumene
Phenol
Styrene (phenylethylene)
Xylene (mixture or isomers)
Benzaldehyde
Acetaldehyde
Acrolein
