Hydrogen sulfide
Dioxins
Biphenyl
Phenol
Lead (respirable dust, fumes or vapors)
Mercury (soluble compounds)
Cadmium (compounds)
Arsenic (compounds)
Mercury (compounds)
Nickel (compounds)
Cadmium (respirable dust, vapors or fumes)
Asbestos and its forms (as dust, fibers or friable products that crumble under hand pressure)
Inorganic/organic cyanide
Lead (compounds)
Nickel (soluble compounds)
Arsenic (respirable dust, vapors or fumes)
Chromium (compounds)
Chromium (soluble compounds)
Lead (soluble compounds)
Mercury (respirable dust, vapors or fumes)
Carbon dioxide
Methane
Chromium (respirable dust, fumes or vapors)
Nickel (respirable dust, fumes or vapors)
Formaldehyde
Acrolein
Acetaldehyde
